

RIVERLAKE

Towards a sustainable
industry together

Shipbroking
Project Management
Intelligence

Our clients are the driving force behind our work as a leading player in the maritime industry.

We are committed to providing exceptional service to our customers, leveraging our integrated organization which covers *Shipbroking, Traditional and Green Storage Terminal Development, Research & Consultancy.*

Our *Intelligence* business is dedicated to equipping our clients and our teams with the most reliable and expert information to support their success.

With a deep affinity for the sea, our dedication to greener transportation and storage solutions remains steadfast.

Our Deep Sea brokers work with clients involved in renewables and bio cargoes.

We take pride in our position as the premier European Inland Waterway broking company and the frontrunner in renewable inland shipping.

Our skilled engineers and project managers tirelessly drive the promotion of Green Tank Terminals and the reduction of their environmental impact.

SHIPBROKING

We do Business across Five Continents

Shipbroking of vessels of all sizes in dry and wet markets, deep water, inland waterways, combined with offshore marine activities, constitutes the backbone of Riverlake's shipping business.

Our expertise comprises chartering, compliance, operations, demurrage & claims, buying & selling, financial advisory and market intelligence. We have proven to be the right experts for our clients expanding into emerging business sectors and new markets.

Through the years, we have developed a thorough understanding of what major corporations and independent trading companies expect from their shipbrokers. Our aspiration is to not only provide competitive levels of freight, but also to include efficiency, accurate advice, trust, information & intelligence and excellent follow-up by our Operations Department.

PROJECT MANAGEMENT

We are Specialist Project Developers and Engineering Consultants

We are specialist Project Developers and Engineering consultants for the energy industry, focused on storage of Oil, Gas & Renewable products.

We strive to use our knowledge to position Energy Storage and associated logistics in a better and more sustainable future. Our priority lies in ensuring cost-effectiveness, attaining maximum flexibility, and keeping impact to a minimum.

As engineering consultants, we have a sound and hands-on understanding of a broad range of energy-related infrastructures.

- Liquid bulk storage
- Liquid and gas products Jetties and SPM's/CBM's
- LPG and small-scale LNG Storage and Infrastructure
- Biofuel, Hydrogen and Vegetable Oil storage
- Biomass plants

We know tank terminals and jetties. In essence we assist our customers with project development services throughout the complete cycle of the development of a tank terminal and a jetty.

INTELLIGENCE AT ITS ESSENCE

Driving Success in our Organization

Whether you are in the oil, gas, dry bulk, container, offshore, tug or terminal and storage markets, or whether you are a port operator, bank or hedge fund, real-time intelligence on global trade flows and shipping market gives you access to the information you need to make better informed, fact-based decisions.

Our research staff ensure that you can always access the latest information concerning the market trends.

We are the shipping market data providers of Reuters® and Bloomberg® but not only.

Do you know that Riverlake releases a great number of market indices and publications daily, weekly and monthly?

With our state-of-the-art Intelligence desk, we have built a rock-solid foundation in research, digital, and commodity data solutions.

SHIP MANAGEMENT

Offering First-Class Ship Management Services to Third Parties

STM Ship Management (STM) is a Geneva-based ship management company.

As a leading third-party ship manager, STM focuses on a diverse fleet of tankers, gas, dry and offshore support vessels.

With a proven track record of over 100 ships under management, the company has earned the trust of numerous owners and disponent owners.

Over the years, **STM has safely transported millions of tons** of wet, gas and dry bulk cargoes, successfully completing more than 20,000 voyages. Additionally, over 10,000 demurrage files have been handled, more than 35,000 port calls have been arranged and over 10,000 bunker operations have been carried out in collaboration with world's class suppliers

35 years experience.

A history of more than 100 ships under management
