Towards a Sustainable
Industry Together

Shipbroking
Terminal Development
Research

Our clients inspire everything we do

As a trusted leader in the maritime industry, we are dedicated to delivering exceptional service across all facets of our business.

With a fully integrated organization, we specialize in **Shipbroking, Traditional and Green Storage Terminal Development, and Research & Consultancy**, providing seamless solutions tailored to our clients' needs.

Where maritime expertise lives

Riverlake's offices are in Geneva, Rotterdam, Lagos and Dubai.

Established in hubs inextricably connected to the maritime industry, we are positioned where knowledge and expertise exist.

100% customer-centric, creating real and sustainable value together!

Know-How drives our approach

We provide integrated solutions in shipping and storage, supporting our clients with precision and reliability across the maritime sector.

Our Deep Sea brokers handle renewables, bio-cargoes, and traditional cargoes, while we proudly lead as Europe's foremost Inland Waterway broking company and a pioneer in inland shipping innovation.

Our engineers and project managers develop state-of-the-art terminals and work tirelessly to enhance efficiency and performance.

Shipbroking

We do business across the five continents

We offer comprehensive shipping services across multiple sectors:

- Deep-sea markets for both dry and wet cargoes
- Inland waterways, serving Europe's river transport networks
- Offshore marine activities, supporting specialized vessel operations

Our team provides Chartering, Operations, Demurrage & Claims, Sale & Purchase, and Market Intelligence, helping clients expand into new markets and emerging sectors.

We deliver not only competitive freight rates, but also efficiency, trusted guidance, compliant and seamless follow-up, giving our clients confidence in every operation.

Terminal Development

We are specialist project developers and engineering consultants

We are Project Developers and Engineering Consultants for the energy industry, focused on transport, storage and logistics of Oil, Gas & Renewable products.

Our core expertise and experience is focused on Financial, Technical and Operational aspects of onshore and offshore assets such as Tank Farms and Jetties, SPM & CBM systems for tanker (off-)loading. We strive to use our knowledge to position Energy transport, storage, logistics and associated operations in a better and more sustainable future.

Our priority is to deliver cost-effective solutions ensuring cost-effectiveness, attaining maximum flexibility, and keeping impact to a minimum. As experienced consultants, we have a sound and hands-on understanding of a broad range of energy-related infrastructures.

- Liquid bulk & gas storage terminals
- Ports, jetties and offshore mooring systems - SPM & CBM
- Biofuels and Hydrogen carriers (LOHC)

We provide project services to support our customers throughout the full lifecycle of their existing and future assets.

Deeply linked
to the maritime industry

Research

Driving success in our organization

Whether you are in oil, gas, dry bulk, container, offshore, tug, or terminal and storage markets, or a port operator, bank, or hedge fund, real-time research on global trade flows and shipping markets gives you the insight to make informed decisions.

Our research team provides the latest market trends and developments and delivers a wide range of indices and publications daily, weekly, and monthly.

Through our Research desk, we combine analysis, digital tools and commodity data to give our clients reliable, actionable insights that support their strategies across the maritime sector.

Ship Management

Offering first-class Ship Management services to third parties

Based in Geneva, STM Ship Management has been an independent leader in ship management since 2002. We oversee diverse fleets - tankers, dry bulk vessels, and offshore support ships. Our teams support shipowners around the world with precision and reliability.

Safety and efficiency are at the core of everything we do. From port operations to cargo handling and contract management, we ensure smooth, compliant, and professional operations. Partnering with top-tier suppliers, STM delivers consistent standards across every voyage, backed by decades of operational expertise.

Diversity. Responsibility. Balance.

Principles that shape
our people,
our partnerships
and our future.
